FIG. 3

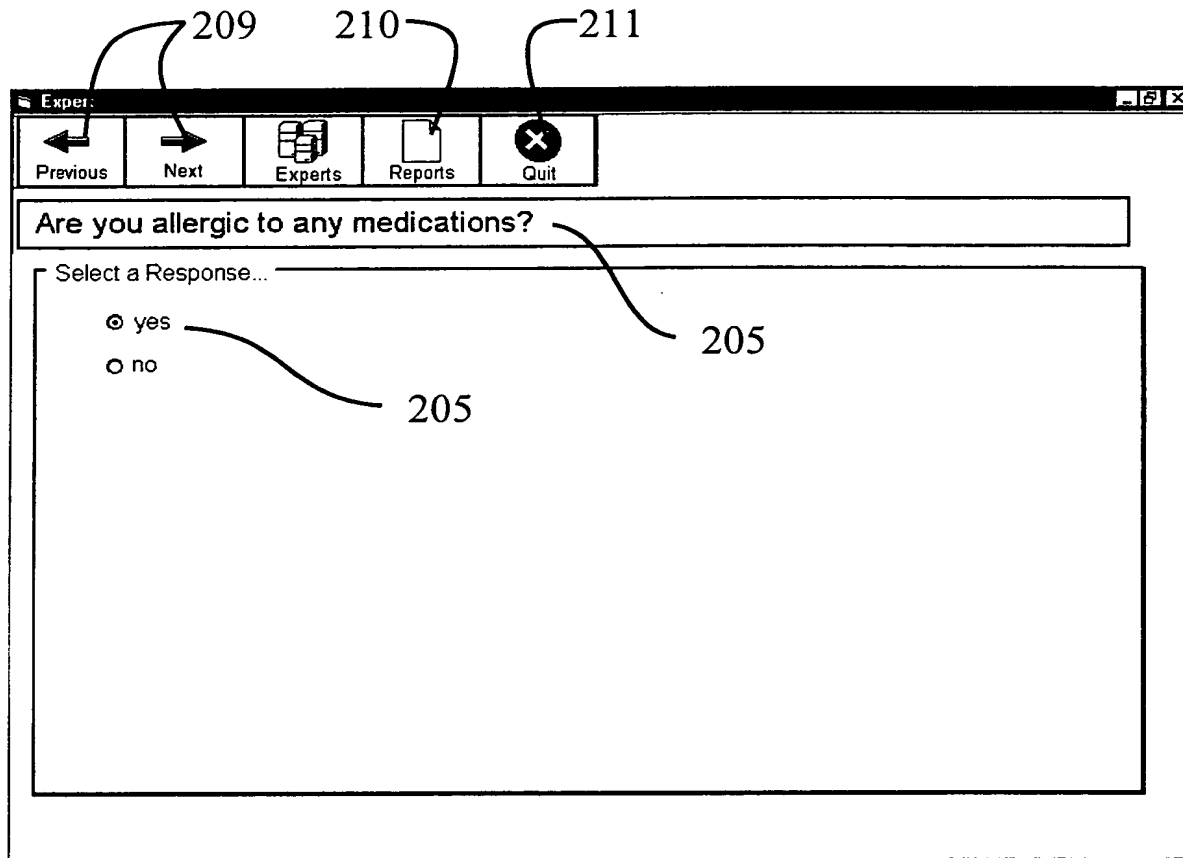

FIG. 4

The figure shows a graphical user interface for a software application. At the top is a title bar with the text 'Expert' and standard window control buttons. Below the title bar is a toolbar with five buttons: 'Previous' (left arrow), 'Next' (right arrow), 'Experts' (stack of papers icon), 'Reports' (single paper icon), and 'Quit' (circle with an X icon). The main content area contains a text prompt: 'List all medication allergies or intolerances and what your reaction is.' Below this prompt is a text input field with the placeholder text 'Enter Text Response...'. The input field is a large rectangular box. There are five callout lines with numbers pointing to specific parts of the interface: 209 points to the 'Previous' button, 210 points to the 'Next' button, 211 points to the 'Quit' button, 205 points to the text prompt, and another 205 points to the text input field.
